**No project is too big or small.**

We have built stands ranging from 4sqm to over 1500sqm!

Our experienced team will be with you every step of the way, from design to production and onsite installation.

A large exhibition stand for Kubota, featuring a prominent glowing blue logo at the top. The stand is multi-level, with a blue carpeted staircase leading to an upper level. The main floor is covered in blue carpet and features several circular white platforms, each displaying a different model of engine. A large purple graphic overlay is positioned on the right side of the image, containing text and a smaller version of the stand's design. In the background, other exhibition stands and people can be seen.

Kubota

We can do it all.

From simple backdrops to  
double decker stands.

Everything is in house, from  
graphics & project management,  
to our workshop & storage  
facility.

# Global Takeover.

Worried about exhibiting abroad? We've got you covered.

We work all over the Europe, have a facility in the Middle East and partners in the US, is there anywhere we can't get to?
